REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance:

The most relevant references in the list of prior art cited are Touro (U.S. 3,961,908) and Fassell et al. (U.S. 3,852,192) who teach transfer the solution from a liquid chamber in a divided storage vessel having a plurality of liquid chambers that share a common vapor space. However, they do not teach nor fairly suggest singularly or in any combination thereof : returning the first treating solution (or adjunct) to the divided storage vessel and transferring a second liquid densified gas based solution (or treating adjunct) having a composition different from the first treating solution (or adjunct) from second liquid chamber to a processing vessel and then return (or remove) it (applies to claims 1-28 and 75-90); charging a second densified fluid into the processing vessel, removing the second densified fluid from the processing vessel, charging the second densified fluid into a second liquid chamber in the divided storage vessel (applied to claims 91-101).

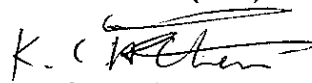

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
